Diversity of artists by nationality

Diversify's Diverse Arts Festival aimed to highlight the artworks and crafts created by Norwegian, immigrant and expat artists, while fostering representation and encouraging a dialogue about diversity and inclusion.

In addition to hosting artists from a range of nationalities as demonstrated above, the festival was inclusive of diversity in terms of age, disability, race, LGBTQIA+.

The festival was an opportunity to forge connections, learn about and strengthen the value of diversity within the arts. Overall, the festival strengthened and empowered the creative landscape in Oslo.
